

# **Fees and Charges Schedule**

**2011/2012**

## **Fees and Charges Context**

Section 188 of the Local Government Act 1999 provides the legal context:

- Fees and charges are determined by resolution of council either as a direct resolution or by by-law or via delegation.
- A council is unable to fix or vary fees or charges prescribed under other Acts.
- Fees for the use of facilities, services or works requests a council need not fix fees or charges by reference to the cost of the council.
- Council is required to keep the list of fees and charges on public display and provide updates where fees and charges are varied during the year.

Council previously resolved the Corporation's fees and charges must be reviewed each year, in conjunction with the development of the Business Plan and Budget. A comprehensive strategic review has been undertaken to ensure that the fees:

- Reflect (or move progressively toward) the cost of the services given.
- Are comparable with market rates, where appropriate.
- Take into account benefit derived by users of community facilities.
- Are consistent with Council directions articulated through existing policy or plans.
- Are consistent with Council's Strategic Financial Parameters.

Fees and Charges are consistently and fairly determined which recognises Council policy direction, ratepayer's expectations and relevant legislation.

Fees and Charges for 2011-12 were adopted at a Special Meeting of Council on 6 June 2011. Statutory Fees are updated as gazetted.
