

What's happening in your city?

Splash Adelaide is an exciting venture to bring the city's streets and spaces alive in a series of urban experiments. Jointly funded by Adelaide City Council and the State Government, the pilots offer local businesses and the community an opportunity to try out new ideas.

Projects underway include:

- More alfresco dining and street lounges
- Streets re-imagined, laneway closures and more
- Urban experiments in underused places
- Street food carts popping up around the city
- Deckchairs, movies, markets and more
